No. 34

Big Time Coming

Next Wednesday evening, November 2nd, the lid will be pried off for the first night of the BIG Second Ward Carnival and Funfest. This year promises to surpass the success of last year, and certain that it is that interest will be more widespread this year as tickets for the Carnival have been sold all over the southern part of the province, and of course every ticket holder will be interested in the drawing for the car at least.

Bishop Walker and his assistants have been busy preparing for months for this event and during the past three weeks every town in the south has been canvassed by members of the ward for the sale of tickets and posters put up informing all and sundry of the big event. The other wing of the chapel is now resplendent with its new floor, and the decorations are going up now so that everything will be in readiness for the big event. The entire building will be used this year and two dances will be in progress throughout the evening with two orchestras in attendance. There will be booths for all kinds of entertainments and exciting stunts. Refreshments will be on sale throughout the three nights of the Carnival and all will be done to make the affair enjoyable to all who attend

regardless of age.

The Auction Sale this year will be big or bigger than it was last year, and will give everyone a chance to get something that they may be wanting at a mere fraction of its real worth. There will also be a Rummage Sale and everyone has been contributing liberally to this so that numerous articles will be offered to seekers for replenishments of one kind and another.

The three nights will enable everyone to see all the side shows, booths, etc., and those who have purchased a number of tickets will have an opportunity to use at least three of them for admission tickets, and on top of the chance on the new car, every ticket holder will get a chance at the small prizes. Now, then if you have not your tickets, get them now. It will give you a chance on the car and assure you some very nice entertainment. And if you don't think tickets have sold, we can tell you that it will take nearly 6,000 to supply the demand and satisfy the ones who want to buy. It is for a good cause, and every cent above the bare expenses will go for the benefit of the Chapel fund, so an extra ticket or two will not be at all amiss.

News Notes

George and Howard Rasmussen were Lethbridge visitors on Monday.

Frank Atterton spent the week end in Cardston with relatives and returned to Raymond Monday.

Quite a number of Indians from the Blood Reserve across the river were in Raymond last week.

Ralph Bros. delivered a carload of stove wood around the town on Saturday last. It was shipped in by Grant Broadhead.

See Lionel Barrymore in "The Yellow Ticket." You will agree that it's the best picture ever played in the Capitol.

Ira McBride of the Stake Sunday School Board visited the Raymond Second Ward Sunday School on Sunday morning last.

A high west wind was blowing all day Saturday, but the skies were clear and the weather was quite fair all day.

L. D. King, Bishop Walker, Sam Dyson, Ross Larson and Austin Jones and others were in Taber, the Lethbridge Northern and Lethbridge selling Carnival tickets on Saturday afternoon last.

A community in Hungary is drinking only wine since the village well went dry. It is sincerely hoped this will not move our impetuous advocates of repeal to blow up the water works.—Sweet Grass Examiner.

Sentiment on the bonus is pretty evenly divided between those who do not believe it should be paid and those who have it coming.—Sweet Grass Examiner.

It appears that an extremely "modern" composer has been saying that the people don't realize what he is doing. But we doubt whether his luck will last.—Sweet Grass Examiner.

Calling for a further slash in seasonal indemnities and a reduction of the number of members, the Liberals in Conventions criticized the government for the high expenses incurred during the past year and stated the \$700,000 thus spent should be reduced by at least \$200,000.

Remembrance Day, November 11, set apart as a separate holiday this year, will provide the last opportunity before Christmas for a long week end holiday, and for the convenience of their patrons who desire to spend the day visiting friends in distant towns and cities the Canadian railways have arranged special fares for the week end. Return tickets, at the rate of one and one quarter times the regular one way fare, will be on sale, good between stations in Canada, for the occasion. The going portions of these special tickets will be good from noon on Thursday, November 10, to noon on Sunday, November 13, and the return portion will be good until midnight on Monday, November 14th.

Portsmouth Penitentiary near the city of Kingston, Ontario, has been the scene of a lot of rioting lately. On Friday last another riot occurred there and soldiers from Kingston were called out and mounted guard on the walls of the prison with full accoutrement of war, and machine guns were mounted at strategic positions on the walls. Friday's rioters were the overflow population of the jail who were not in cells, but in a dormitory. They overpowered forty unarmed guards, and reports stated they were holding them threatened with death if any of the rioters were killed or wounded. After several hours the good behavior prisoners were taken to the new quarters just completed to house women prisoners and the rioters were being herded into cells where they will be locked up for awhile. During the riot those who were in the cells were screaming and shouting and encouraging the unruly prisoners not to give up.

Howard Oliver was a Raymond visitor on Sunday last, coming down from Calgary for the day.

Misses Wynora Scoville and Beth Walker were home over the week end from the Normal School in Calgary.

State Conference of the Lethbridge Stake will be in session Saturday and Sunday of this week, and Taylor Stake will likely follow the first week in November. This will be a Convention of the priesthood and it is likely that visitors will be here from Salt Lake City.

Wedding Bells

TURNER - SNOW

W. O. Turner and Miss Anne Snow were married on Thursday of last week in the Cardston Temple, with President Edward J. Wood officiating. The ceremony was witnessed by relatives of the contracting parties. Following the marriage a reception was held in Cardston, where Miss Norma Snow, a sister of the bride is living.

The congratulations of the community go out to the newlyweds and wishes for much happiness and joy. They will make their home in the O. K. district where the groom is engaged in farming.

First Ward Choir At Second Ward

The Raymond First Ward Choir under the leadership of W. C. Stone were at the Second Ward on Sunday night and furnished the singing for the Sacrament Meeting, and their numbers were greatly enjoyed by the audience present. Special numbers by the choir were, "Praise Ye The Father", "Come Where The Lilies Bloom", and "The Radiant Morn Hath Passed and Gone".

The speakers were Elder Glen Stanford, who gave a very instructive address on "Treasures" and urged all to look for the Treasures they had near them, and not go looking to distant fields to find them. Elder Lynn Fawcett spoke briefly and related some interesting faith promoting experiences of his mission. Another item of business was the advancing of a number of young men in the priesthood, as follows: From Priesthood to Elders, 8, from Teachers to Priests, 9 from Deacons to Teachers, 3; and to be ordained a Deacon, 1.

R. H. HOMMEL APPOINTED GENERAL MANAGER MERCURY MILLS

INCREASED BUSINESS REPORTED - FACTORY WORKING OVERTIME

R. H. Hommel has recently been appointed Vice-President and General Manager of Mercury Mills Limited of Hamilton. He was for many years chief executive of two large chain store organizations.

Mercury Mills Limited reported a decided increase in business as compared with the corresponding period of last year. Shipments of men's and women's hosiery alone being up forty per cent. Five departments are now working overtime—fifty additional employees have been taken on in the past month and the payroll has increased by twenty per cent.

Mercury Mills Limited recently secured the largest single order ever placed in Canada for full fashioned hosiery. It was for one million pairs.

MILD WINTER IS NOW PREDICTED

(Sweet Grass Examiner)

A mild winter for central Montana is predicted by Sven Norheim, noted weather forecaster, in a communication to the Winnipeg Times. Writing under the date of September 28, Mr. Norheim foretold the first snow of the season on October 6, the exact date of its arrival.

He says there will be heavy weather now until November 23, when there will be a heavy snow storm over this region, and warns stockmen to round up their herds before the storm. Weather conditions after that will be generally good until mid-January, when there will be a light snow.

The big storm of the year, says Mr. Norheim, will be on February 2, and will be accompanied by heavy cold. The weather will then be fair until the period from March 22 to 24, when he expects another storm.

Mr. Norheim foresees a good winter as a whole, with ranges bare of snow for a considerable part of the time.

Final Crop Report Of Bank of Montreal

(Winnipeg, October 22, 1932)

GENERAL

Taken as a whole, the principal field crops of Canada have seldom attained such volume as during the present season or been of a higher quality. Yields were generally satisfactory in each of the Provinces, despite sectional reverses due to weather conditions or other causes. A preliminary estimate of the Dominion Bureau of Statistics placed the total yield of wheat in the Prairie Provinces at 446,000,000 bushels, but from latest reports a total of around 415,000,000 bushels is now anticipated even so, the yield is well in excess of the ten year average and the largest crop since 1928. Last year's prairie crop was approximately 300,000,000 bushels. The wheat marketed to date has been exceptionally high and tests indicate that the high protein content will be maintained. The western oat crop is estimated at 274,000,000 bushels against 182,000,000 bushels last year and the barley crop at 70,000,000 bushels a percentage of 50,000,000 bushels. In Quebec crops of the main staples have been good and in Ontario they have been heavy although in both Provinces potatoes are below average. In the Maritime Provinces crops have done well, with again the exception of potatoes. Nova Scotia also recording a 30 per cent loss of apple crop due to storms. In British Columbia crops generally have been above average. Details follow:—

PRAIRIE PROVINCES

More normal moisture conditions have prevailed this year and the spring season was favorable for germination and early growth. Plentiful although unevenly distributed, rains continued throughout June, but in July drought and extreme heat caused deterioration in central Saskatchewan and southern areas of the three Provinces. Weed growth after the rains and insects, principally grasshoppers and cutworms, caused a serious damage in many districts of Manitoba and Saskatchewan. Damage except from drought was negligible in Alberta. Hail losses were less severe than usual and rust, appearing late, caused little damage. More plentiful rainfall in August checked deterioration to some extent and assisted late crops. An area of near failure prevailed in south central Saskatchewan, with below average crops in the greater part of southern Saskatchewan and in parts of Southern Manitoba, southern Alberta and east central Alberta. In other areas crops on the whole are good and feed shortage will be experienced in only a few districts. Average estimated wheat yields are as follows: Alberta, 21 bushels; Saskatchewan, 14 bushels; Manitoba 17 bushels. Harvesting made good progress but in Alberta threshing operations have been repeatedly delayed by rains and later by snow. Threshing is complete in Manitoba although about 10 per cent of the Alberta crop remains to be threshed and a small portion of the northern Saskatchewan.

MARITIME PROVINCES

Crops are a good average with the exception of potatoes of which a substantially smaller acreage than usual was planted and which suffered from rot. Cereals yielded well both as to quality and quantity. Hay was above average. Heavy storms caused a 30 per cent loss of the apple crop in Nova Scotia. Undamaged fruit is of good quality and color. The New Brunswick apple crop is about average and of good quality. Export shipments to date are about 50 per cent of last year. Pastures remaining in good condition throughout the season.

PROVINCE OF B. C.

Grain crops were better than average. The dry crop in the interior is estimated at 11 per cent of the average but in the coast districts considerably less occurred owing to wet weather during the cutting season. The apple crop is estimated at 3,000,000 boxes which is 115 per cent of average and the quality is excellent. The yield of other tree fruits was heavy. Strawberries and raspberries were below average and the quality in excellent. The acreage in tomatoes was considerably reduced but the yield was good and the whole crop was utilized by the canners. Potatoes were a good crop and the yield of roots and vegetables was above average. There was a reduced acreage in hops and the yield is estimated at 80 per cent of the average. Pasture has been plentiful and ranchers have more than sufficient food for winter feed.

Beet Digging Very Nearly Finished

Large piles of sliced beets dotting the fields in every direction mark the approach of the finish of the beet harvest. Favored with good weather the past two weeks every effort has been bent to hasten the harvest, and while the embargo has prevented the hauling of any great tonnage to the factory, digging operations have been pushed with all possible speed, to get the beets out of the ground and into the piles before any more frost or cold storms arrived, and with the good weather of the past week, this has been pretty well accomplished.

Some growers have as many as 200 tons of roots sliced in the field which will keep haulers busy for

some weeks to get them transported to the factory and when the restrictions are lifted and all possible beets can be hauled in. The yield has been very good generally, and will exceed by many tons the early season estimate of 138,000 tons, although just how much cannot be told for some time as many of the beets will not be delivered for several weeks yet. On Friday night of last week, Supt. P. R. Taylor estimated that 105,000 tons had been dug. Newspaper reports stated that Taber and Durnell would finish tonight with the exception of a few growers, and quite a number in this district are finishing up now and will be all finished by the end of this week.

Rayo Woolf Heads Raymond A.A.A.

The Annual Meeting of the Raymond A. A. A. was held in the Town Hall on Monday night with a good attendance present. The report of the President and Secretary for the past year were presented and accepted. The financial statement showed a deficit of \$150.00, with some outstanding accounts, added to this, but it was thought that the membership drive to be staged would cancel the deficit. Other reports were made by S. B. Card on the rink operations of last winter, and by R. G. Kirkham on the Amateur Basketball Meeting held in Calgary recently.

It was decided to let the Canadian Legion have the skating rink, and they will sponsor Public Skating and

Senior Hockey during the coming winter there.

The election of officers was held and resulted as follows:—

Honorary President—L. D. King. President—M. Rayo Woolf. Vice-Pres.—Dr. G. W. Leech. Sec.-Treas.—R. G. Kirkham. Executive—Same as last year.

The retiring officers were all given a vote of thanks for their untiring efforts during the past year.

A membership committee was also appointed at this meeting, and they will be canvassing for members immediately. The personnel of the committee is as follows:—Chairman—Dick O'Brien, and George Ralph, T. K. Roberts and L. B. Middleton.

News Notes

Miss Lenore Scoville was home from her school teaching in Kimball over the week end.

Born to Mr. and Mrs. J. Ross Salmon at the Lethbridge Hospital on Saturday October 22, a baby boy. Mother and son are doing nicely.

See Lionel Barrymore in "The Yellow Ticket." You will agree that it's the best picture ever played in the Capitol.

A SANE HALLOWE'EN

Next Monday night, October 31st, will be Halloween night, when according to tradition the ghosts and goblins go out for a holiday or lark or whatever you want to call it and have a good time. It is the night when we have ghost parties, when the eerie screams and moans of creatures of the spirit world are supposed to make people's blood turn to water, their hair stand up or fall out and otherwise terrify and bewilder quiet and peace loving citizens.

Almost from time immemorial too, the destruction of property, the misplacing of everything loose and movable, and the general raising of hell and propping it up, so to speak, has been considered an essential part of an enjoyable Halloween. Now comes the question "Why?" Why is there any amusement in destroying private property? Why do we get such a kick out of wreaking destruction here and there that will not only take time, but also money to repair the damage? Why are we never content on Halloween unless we are getting someone's goat, or at least trying to, and feeling somewhat disappointed if we failed to get some one or two or three individuals chasing us with blood in their eye because of mischief that we had wrought?

We would like some wise person to tell us the why of all these things. We are unable to explain it, but we can tell this much, that any person who is the victim of meddlesome pranks on Halloween night, or any other night for that matter, is quite within the law in protecting his property and if anyone is hurt, the trespasser is entirely at fault, and the law will not touch the one who inflicted bodily injury in defending his property.

Now young fellows, that ought to be enough. That should be warning sufficient to cause sensible people to keep within the law in their Halloweening. Parties, dancing, games and harmless pranks, such as scaring people and all these things, are more or less excusable, and a few tales of fun. But when a gang comes onto a person's lot and carries off a gate, takes a wagon or buggy to pieces and scatters it all over the farm, parts of which seldom if ever are found, tips over buildings and breaks off their roofs, doors and otherwise causes destruction and damage to property, then it is time to call a halt.

Constable VanOrman in his calling as Chief of Police has warned all and sundry through the columns of this paper that none of this stuff will be tolerated on Halloween this year. That every precaution will be taken to prevent any property damage and offenders will be prosecuted.

There you are, Go ahead and enjoy yours. Have all the fun you want and can enjoy, but hand off the destructive pastimes that characterize nearly every Halloween. No one should take offence, and no one should be grieved in this warning. It is fair, it is given in the spirit of a desire for a safe and sane Halloween, and every law abiding citizen should be so that he or she obeys the law, and use their influence to get others to stay within the law in these things.

As time goes on things outgrow their usefulness, and like many other habits because it was accepted last year and fifty years ago, is no sign it is good now, so in the light of present day progress let us put these practices into the discard of forgotten things, and plan a new, better way of letting off steam and finding an outlet for our pent up energies. Co-operate with the officials in charge and see how much better we will all feel when it is all over.

News Notes

Gordon Brewerton of Cardston was a business visitor here on Friday.

Mr. Rupert, District Manager, and W. J. Kraft, Southern Alberta Manager for Safeway Stores, were in Raymond Friday, and visited the Sugar Factory.

Sunday last was Rally Day for the Sunday Schools throughout the Taylor Stake and extra efforts by those in charge swelled the attendance in all schools for that day.

NEW TREE-PLANTING POLICY

Announcement of a new tree-planting policy for Alberta, looking towards reforestation, is announced by Hon. R. G. Reid, provincial minister of Lands and Mines. Following assumption of control of the province's natural resources, and having in mind the influence of tree growth on soil drifting and moisture conservation, as well as the enhancement of the natural beauty of the countryside, the government believed it to be a duty to establish some foundation for reforestation work in the future.

Commencing next spring, free distribution will be made from stocks already established at Oliver provincial farm near Edmonton, of young white Spruce to farmer in the park lands belt who are making an effort to preserve the bluffs already on their farms. Spruce growth has been found to be successful in these bluffs. For the time being this will be the extent of the operations of the policy, though it will be expanded to include other important features of reforestation as soon as found practical and advisable.

There will be no conflict with the work of the Federal forestry stations in the west, the province having in mind the larger object of reestablishment of coniferous growth in the parkland and prairie sections. With respect to the prairie section, the policy for the time will be confined to assisting municipalities and farmers to grow spruce and pine in wood lots already established and around lakes which are more or less community or holiday centres. Trees for this purpose will be supplied for cost of freight only.

A feature of the policy at present in mind is that there will be very little financial outlay, since the establishment of foundation stocks, which has already been done at Oliver to a considerable extent, is carried on with land available at the Oliver Institute, and with labor of patients, providing a very satisfactory form of treatment also for the patients. There are now at Oliver some 800,000 Lodge Pole Pine in seed beds, and some 300,000 Spruce seedlings. More seed beds to be added next spring will provide more than a million more trees.

The government is also doing something at Oliver in the way of experimenting with other tree growth, and already some 28 varieties in all are being tried out there, including those native to the province.

STRAW STACKS MAY PROVIDE PAPER

CALGARY, Oct. 20.—"In the near future straw stacks will no longer be burned on the western prairies, they will be utilized in the manufacture of paper. I am confident that we will see this accomplished within the next five years," said Arthur West, speaking to the Probus Club at its weekly luncheon in the Palliser.

"There is scarcely a commodity of present day civilization that answers so many purposes as does paper," Mr. West said. "Not only have we wrapping paper, newsprint, book and bond paper, but we also have paper turned to scores of practical uses such as plates, towels, drinking cups, boxes and cartons, and in addition there are the multi-colored tissue papers of every conceivable shade and design."

China and Japan were manufacturing paper two centuries before the Christian era, he said. The art was then practised by the Arabs and the Moors, spread to Spain, thence to France, Holland, and England.

Mr. West said there would be a revolution in paper making when straw stacks were utilized. One ingredient is lacking for successful completion of this method, he said, but he asserted that within a few years the solution would come, and the straw would be equal, if not better, than wood pulp. He thought the change would occur in about five years.—Bassano Mail.

CORN FOR SOUTH ALBERTA

Dr. S. E. Clark of the Dominion Range Experimental station at Manawatch has announced that for the first time in history registered seed corn is available which has been produced from corn grown on the Canadian prairie. It will, he says, mature in southern parts of Alberta, Saskatchewan and Manitoba, as far north as Red Deer.

That's an important development in corn growing, and one which should receive great attention from farmers and ranchers in southern areas.

We have come to think that the only way to grow wheat is by summerfallowing every other year but we appear to have overlooked to a

News Notes

Mr. and Mrs. Arlo Palmer were in Lethbridge last Saturday.

R. A. VanOrman is moving into his new house the end of the month. It is all finished now.

The District Post Office Inspector was at the Raymond office on Friday of last week. Everything was found to be in order as usual.

L. D. and Shirley King, Ross Larson and Austin Jones were in Cardston, Magrath and other points on Friday selling Carnival Tickets.

Frank Atterton was busy last week putting the wire on his house for stucco and this week it is being stuccoed. It won't be long now before he'll be on the inside finishing.

Measles seems to be spreading, as another case was reported on Wednesday. Every precaution is being made by the health officer and school to check the disease, and only a few cases as yet have been discovered.—Taber Times.

Constable Ellis of Magrath was a Raymond visitor on Friday. He is busy now checking up on radio licenses, and if you have a radio without a 1932 license, you had better get busy and get one, according to the Constable.

large extent the custom of other lands which is to grow a cultivated crop as a cleaning crop.

Now, if we can keep our land built up in fertility, and can grow a crop on it every year, it looks to us as if this would give a better chance to make a profit than by leaving the land idle every second year, building up taxes and overhead which must come from the succeeding crop.

A good many farmers are now growing some corn, but they have not got the practice dovetailed into their farm practice as it will be ten years from now. There are certain years—wet years—in which corn may be more or less a failure as a grain crop. But our bet is that it will not be many years before we are growing 30 bushels of corn per acre, well matured. That's better than our dry land average oat crop. And the corn will provide a world of fodder feed. We need corn in our wheat crop rotations here in Southern Alberta. We need sweet clover and some dry land, alfalfa, too.—Lethbridge Herald

SUGGESTS STATE FARMS FOR UNEMPLOYED

Ottawa, Oct. 16.—Endorsement of government was mingled with criticism in the Senate when the elder statesman resumed debate on the address in reply to the speech from the throne Senator Michener expressed disappointment that the government had not given any hope of a constructive program to provide work for the unemployed. He suggested the establishment of state farms where men could contribute to their own support and learn farming. Another suggestion by Senator Michener was that practical mining engineers should be organized to develop the gold quartz and placer mining in Canada while the government could locate crude oil fields in the west.—Bassano Mail.

FOREIGN NEWS AND VIEWS

Japan has approximately 70,000 Buddhist temples.

Germany has 4,647 daily newspapers, 147 being published in Berlin.

More than 50 trolley routes have been abolished in Paris, France, in the past seven years.

Germany has 31,259,000 acres of forests. One third of the total is under public control.

Travelling grocery stores, which stop at specified places for housewives to make their purchases, now operate in Berlin, Germany.

For the safety and comfort of pedestrians, wheeled traffic is barred from the shopping district of Buenos Ayres, Argentina, between 4 and 8 p.m.

To encourage men to look clean and neat, a beauty contest for bathers was recently held in Adana, Turkey, with a prize of \$2,500.

Most of the local headquarters of the Nazi, National Socialist party of Germany, are in saloons and the proprietor usually grant a rebate when beer is purchased by the barrel.

Austria is said to have more doctors in proportion to its population than any other country in the world. There is one physician for every 837 inhabitants of the country.

Nearly 10,000 natives of Poland emigrated, the majority to European countries, during the first half of this year. Former emigrants returning to Poland, during the same period, numbered 21,906.

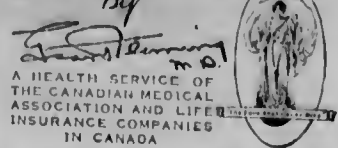

Women are to be forbidden to gamble in Hungary. Policemen will be present in coffee houses and other public places licensed for card games to see that the regulations are carried out.

Sixty per cent. of the inhabitants of Rumania are still illiterate. Authorities are doing everything in their power to alter this state of affairs, including the encouragement of education outside the schools.

The number of women and children employed in mines and at night in Japan has increased from 37,050 in 1928 to 7,000 at present. Underground operators will be prohibited from engaging this class of workers after September 1, 1933.

A model school for gardening is to be established at Fontainebleau, France. In the vast and spacious park lying between the river Seine

HEALTH

YOUR CHILD'S HEALTH

The work of the modern health department is more or less familiar to all of us. There is a tendency to place responsibility with the department which it can never be expected to assume. The department can do certain things and do them well, but the health care of your child must be given chiefly by you, his parents, not by the health department.

The child's health depends, in the beginning, upon the care the mother has during her pregnancy. Proper care throughout pregnancy and delivery not only safeguards the mother but protects the child, and secures for the child a good, fair start in life. The health department will supply the mother with printed instructions, but she herself must go to her doctor to secure the supervision she needs.

After the baby is born the best way for the mother to give health to her child is to breast feed her baby. When the time comes to wean, then the health department should have available a supply of pasteurized milk.

One of the greatest public health achievements is the pasteurization of milk. As a result of the pasteurization of milk supplies, there has been a great reduction in the summer diarrhoeas of young children, abdominal and bone tuberculosis and other diseases spread by milk. The care of the milk, keeping it clean after it is delivered, is a responsibility of the home.

and the forest of Fontainebleau, the student-gardens will be taught the art of horticulture.

A marriage bureau is to be operated by the municipality of Tokyo, Japan, for low-income men and maidens. Applicants will be required to furnish adequate personal information and to state what kind of a husband or wife is required.

Black and white in the Kingdom, King Carol of Rumania is also in the wine and cheese business. Back of the royal palace in Bucharest there is a small, dark shop from which emanates a mixed odor of wine and cheese. A small sign indicates that the products of the royal farms and vineyards can be had at very reasonable prices.

A Perfect Driver

"My wife runs her new machine splendidly; never speeds so fast she can't stop within a foot or two, always pays attention to her wheel; never starts one way, and then without reason turns off in another direction; threads her way around corners perfectly."

"What makes the car?"
"Car! It's a sewing machine."

You can have your child protected against two diseases, one of which years ago used to take the lives of many and bear the rest — smallpox, the other which still continues as a major cause of deaths among children — diphtheria. Protection against these two diseases is available, but that fact will not protect your child; you must have him vaccinated against smallpox and immunized against diphtheria if he is to be safeguarded.

When the baby stage is passed the child needs care. During his pre-school years he establishes his habits of life, which will determine in large measure, his physical and mental health in later life. Physical defects, such as diseased tonsils and adenoids, commonly develop at this period of life. They should be corrected by proper treatment, and not allowed to continue, as they may cause serious harm to the child.

Your child will be far more likely to grow up a healthy, happy, useful citizen if you make use of the knowledge which is available concerning child care, rather than if you trust to chance.

To give your child physical and mental health is the greatest success which you can achieve, and it will give you more satisfaction than anything else in life.

Here and There

A total of 123 sailings to and from Halifax will be made during the coming season to the Old Country, the majority of which will be by Canadian Pacific steamships.

A rise in wholesale prices in Canada during September is considered to be one of the outstanding favorable events in the Canadian economic situation, according to a statement recently issued by the Department of Trade and Commerce.

Popularity of Canadian tobacco in the United Kingdom is increasing. For the eight months to August last, 3,950,563 lbs. of Canadian tobacco valued at \$2,545,233 was exported to Great Britain as compared with 4,917,125 lbs. valued at \$1,429,892 exported in the same period of 1931.

The Canadian silver production in 1931 was approximately 2,815 million ounces, or 10.5 per cent. of the world's computed production of 196 million ounces. Canada has for many years ranked third amongst the silver-producing countries of the world, being exceeded by Mexico and the United States.

New Brunswick is to stage the North American Cover Dog International Trials as an annual sporting event. Success of two days' trial concluded at Peterborough recently, has brought about formation of a permanent dog fanciers and owners association which has fixed dates for 1933.

Photographs of Bangkok's shrines, temples, statues, and other places of interest in Siam taken during world cruises by Canadian Pacific liners, are being taken to Bangkok for King Prajadhipok by the Siamese Consul-General in Canada, who sailed for the Far East on the Empress of Asia recently.

Hon. Herbert M. Marler, Canadian Minister to Japan, left for Tokyo recently aboard the Empress of Asia after a two-month vacation in Canada, strong in the belief that the Dominion is on the threshold of great trade developments in the East. With 500 million people in Japan and China, the possibilities, said the Minister, are incalculable.

China is on the eve of an era of tremendous development in railway expansion, engineering works and general trade, in the opinion of Major W. S. Nathan, chairman of the Pekin syndicate, who recently sailed on the Empress of Japan from Shanghai to Victoria en route for England. Rationalization and expansion of China's railways would be the first step in this expansion, he stated.

Three months in the unexplored regions of the Fairweather Range in Alaska, with mountaineering, airplane explorations, and skidding, was the annual summer holiday of a party of Harvard undergraduates, led by H. Bradford Washburn, Jr., president of the Harvard Mountaineering Club, who returned on the Alaskan Pacific liner to his Alaska home recently. "We had had back in the weather and snow," said Washburn, but otherwise the party is bringing back some very interesting moving pictures of their experiences.

News Notes

Mrs. Annie Thompson had Sunday dinner with Mr. and Mrs. Reg. Cooper and family.

Officials of the Stake Sunday School Board visited in Wrentham on Sunday last.

Police are taking transients off the trains at Crow's Nest on the west of Alberta, and the men walk to the next station and board another train heading to the coast for the winter months.

A miscellaneous shower was held in Lethbridge on Friday night, last complimentary to Miss LaRee Passey, of the Factory Office Staff, who on Wednesday was married to Karl Dahl.

Alex Cunningham, Assistant Manager of the Ford Co., for Alberta, was a business visitor in Raymond on Wednesday. Speaking of business conditions Mr. Cunningham was optimistic and stated that sales this year were ahead of the same period last year.

Single-jobless will be drafted out of the city of Lethbridge to work on the Waterton-Glacier cut off road which will be built this coming winter. The new road will make the distance from Glacier Park to Waterton about 30 miles less than it is at present around by Cardston.

The C. P. R. Station at Burdett was destroyed by fire on Sunday last. The blaze was believed to have started from an overheated pipe in the basement. Records and furnishings of the station as well as the Agent's suite were entirely destroyed, although covered by insurance. The agent, J. E. Tompkins, was badly burned while fighting the blaze. A temporary station has been moved in.

**NO WHEAT BONUS SAYS
PREMIER BENNETT**
DOMINION IS NOT ABLE TO
MEET APPEAL

Premier Answers Question Put to Him by A. L. Beaulieu

**NOT IN FINANCIAL
POSITION TO PAY**

OTTAWA, Oct. 25.—The Dominion is not in a position to pay a wheat bonus this year, Premier R. B. Bennett told the House of Commons today.

"The government is not in a financial position to pay the bonus on wheat in 1933," said the Premier.

His statement was in reply to a question put by Arthur L. Beaulieu (Liberal, Provencher).

LIFE OF BUSINESS PROGNOSTICATORS NOT AN ENVIABLE ONE THESE TIMES

Accurate Reading Present Barometers Keeps Prophets or Jump—Consensus is Worst is Past with better Times Beginning to Appear

(By Frank M. McConnell, Associated Press Financial Writer)

New York, Oct. 22.—The life of the weather men is said at times to be trying, but business prognosticators believe their lot is much the harder of the two.

Now that the United States had enjoyed a measurable degree of business pickup although in most cases apparently of seasonal dimensions the business forecasters are working overtime to make a correct reading of present business barometers. A number of authorities have entered their findings on the public record.

This week, the Westinghouse Electric Co., while reporting a \$2,750,000 deficit for the third quarter of the year, found reason for cheer because "from a careful analysis of the general business situation the management has no hesitation in stating that the turn for the better has been made."

The private banking house of Lehman Bros. conducted a telegraphic survey of business opinion, and reached the conclusion that the worst had been seen.

Standard Statistics Corp. sent investigators to scan the country's business field and to ask questions of 530 leading business executives. This organization concluded that "the crisis of the depression and the low point of business activity were passed early last summer."

—Lethbridge Herald.

News Notes

We hear of a lot of book review in many gatherings here and there, but we have failed to notice yet any place where the Bible was reviewed.

See Lionel Barrymore in "The Yellow Ticket." You will agree that it's the best picture ever played in the Capitol.

Edmonton unemployed won a victory in Edmonton Monday night when the Council of that city agreed to feed them until the Dominion Government announced a definite system of dealing with the unemployment situation.

Wheat prices slumped from 1 5/8 to 2 3/8 cents per bushel on the Winnipeg market on Tuesday to set a new low of 47 1/2. This is rather discouraging for wheat farmers all over Canada.

1,300 houses were burned in Honatsu, on the Japan sea 160 miles from Tokio last week, and soldiers used dynamite to fight the fire. Damage is estimated at \$1,850,000 (\$3,000,000 yen) and 6,000 are homeless.

It is reported that fruit is lying on the ground in orchards in Utah and Idaho rotting, and that in some localities health authorities have ordered farmers to haul off the rotting fruit to prevent disease.

Raymond script is the subject of a lot of excitement and Secretary Snow has received letters from all over the Western provinces asking about it and how it operates. The Herald had a photo of the certificate being issued in its Saturday night issue.

Neville Chamberlain, Chancellor of the Exchequer in Britain, at a recent gathering in Birmingham stated that he could see signs of solid recovery in conditions. Orders were coming to Britain from sources where there had been no orders for years, that the tide of unemployment had eased and that things may swing the other way very soon.

With the death of Wm. Patterson C.P.R. brakeman of Kenora, on Friday, it made the third death as a result of the Boiler Explosion of a C. P. R. freight train which occurred on Thursday. The engineer was killed instantly, and the fireman died several hours after the explosion.

Wedding Bells

Miss LaRee Passey, for some years stenographer at the Sugar Factory Office and Karl A. Dahl, were married in the Alberta Temple yesterday with Pres. Wood officiating.

The young couple are both popular and well known and have the best wishes of their many friends for happiness and joy in their married life.

Ethel Peterson Dies

Mrs. Ethel Peterson, wife of Earl Peterson, and both well known here, died on Wednesday in the Cardston Hospital from burns received when she gave her life to rescue her three year old girl following an explosion of gasoline which soon had the room in mass of flames. The funeral is being held in Cardston Friday afternoon at 2 p.m.
